## “ THE LETTER FROM CHAIRMAN

*Paul C. Chau*

**Chairman & President,  
JA China**

### **Dear JA China colleagues, partners and friends,**

As 2017 is coming to the end, JA China is going to welcome its 25 anniversary. Every time I feel fulfilled and grateful, when I recall the establishment of JA China, and the support and trust we've obtained.

On September 5, JA China got the registration certification from Beijing Municipal Public Security Overseas NGO Administration Office based on the Law of the People's Republic of China on the Administration of Activities of Overseas Nongovernmental Organizations in the Mainland of China. Chinese People's Association for Friendship with Foreign Countries (CPAFFC) is our host organization.

As one of the few early registered overseas NGOs, we understand that this is impossible without the support from all of you. Hand in hand with over 70,000 volunteers and teachers in 35 cities, we served over 5 million teenagers in the past 24 years. I treasure these achievements since they represent people's trust in JA China.

Last year, we also witnessed the growth of many JA students and the contribution of volunteers and teachers.

In the Asia Pacific Company of the Year Competition held in Japan, Huiming Student Company presented by High School Affiliated to Fudan University won the "Young Entrepreneurs' Choice Award", as the first Chinese team winning an award in the Asia-Pacific Final.

The Company of the Year Competition was held together with Social Innovation Relay for the first time in China. These teenagers with entrepreneurship, creativity and social responsibility make me visualize the infinite hope of future China.

JA students from vocational school participated Asia-Pacific International Trade Challenge for the first time. Contest is a part of our education which is locally rooted yet forward-thinking and with international view. We are delighted to hear the students say, when they lost, "Success is not represented by an award only. We all took a leap forward, so at this moment, we are successful too."

In the New Year, upholding our mission and join efforts with partners and volunteers in all fields alike, we will inspire and cultivate more Chinese youth to their success!

# MISSION & VISION

## MISSION

 To inspire and prepare the young people of China with character and skills to succeed in the global economy.

## VISION

### WE BELIEVE:

- Every student has talent
- Potentials can be realized when given opportunity
- Success is guided by character

### WE ARE COMMITTED TO:

- Delivering top quality, research-based, hands on experiential programs
- Building competency in students for the global market
- Instilling character, creativity and leadership in youth

### WE CHALLENGE STUDENTS TO:

- Hone their skills and character
- Find meaning and purpose through career
- Practice servant leadership

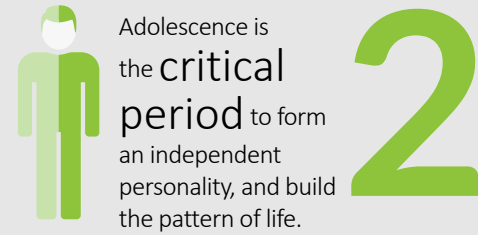

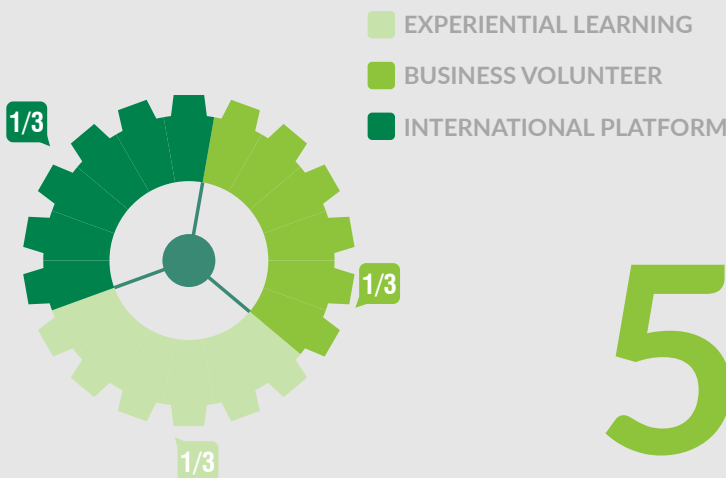

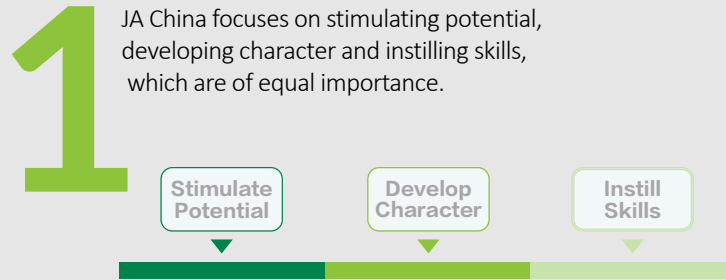

# WHAT MAKES JA UNIQUE

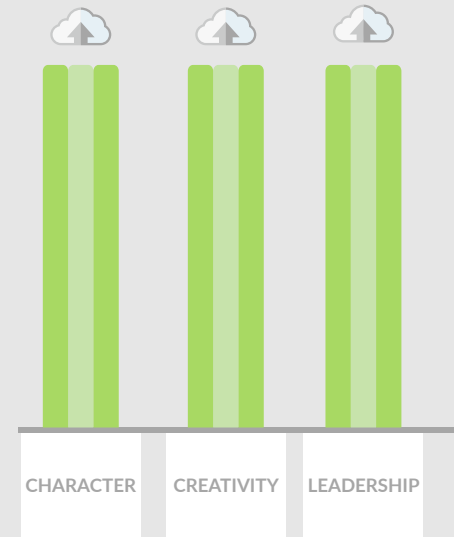

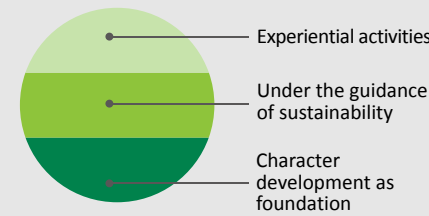

## OPERATION MODEL

JA bridges education and business worlds. We cooperate with enterprises to get finance support, meanwhile, recruit high quality business volunteers into our program. After 20 years of exploration and practice, we have developed economic and business courses covering all education stages with characteristics of engaging business volunteers, experiential learning and international platforms.

# EDUCATION PHILOSOPHY

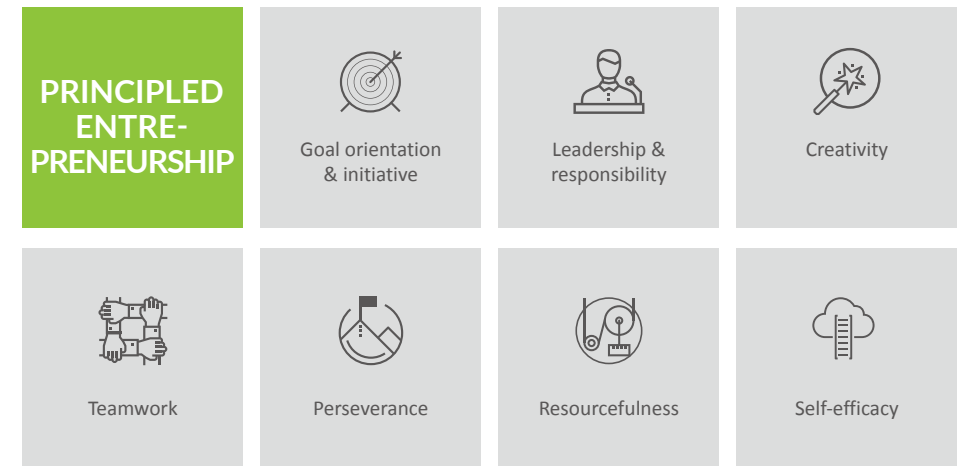

**JA CHINA INSISTS:**

JA's volunteer-led work-readiness programs teach critical work skills that prepare young people for college, trade school, or the workforce. Whether job shadowing skilled mentors, or developing business solutions during business challenges, JA students are prepared to activate the future of jobs.

JA students create real companies with real products, working as a team on product development, small-business finance, product marketing, and equity valuation as they launch their entrepreneurial careers.

JA's hands-on, role-playing financial-literacy programs expose young people to smart saving and investing, thoughtful spending and credit, the role of taxes, the value of employment and community involvement, and the opportunities of global trade.

## REGULAR PROGRAM:

Regular program is delivered by school teachers or volunteers, lasts for one semester or one year, during which students can go through a systematic and complete learning process. JA courses are useful complements to national curriculum and one attempt to explore core literacy education.

### UNIVERSITY

#### CAREER GO

Encourage students to think about their career development and professional skills, resulting in a mature mindset to effectively manage their future career life.

#### GLOBAL BUSINESS ETHICS

Help students take a corporation's all social responsibilities into consideration, and make ethical business decisions.

### SECONDARY SCHOOL

#### INTERNATIONAL MARKET

Discuss how people and cultures from different countries are connected by trade.

#### MY MONEY BUSINESS

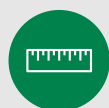

Introduce financial planning concepts to students and help them establish financial planning habits that will carry over into their adult life.

#### COMPANY PROGRAM

Transform student teams into companies and help them to learn about taking responsibilities, seizing opportunities, and working in teams through company operation and management.

#### JA ECONOMICS

Introduce students the basic concepts of micro- and macro-economic and the market economy, and further utilize a computer simulation to give students first-hand experience with the principles of economics, management, and decision-making.

### PRIMARY SCHOOL

#### OUR CITY

Discuss economic development, career opportunities and sustainable development in urban areas.

#### OUR WORLD

Teach imports and exports, international trade and cross-border communication.

#### MORE THAN MONEY

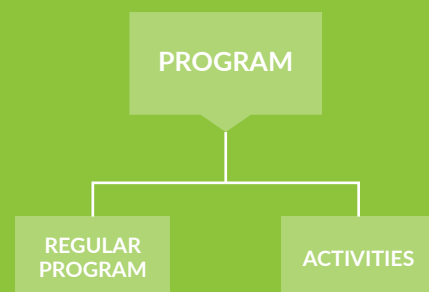

Help students understand the use of money and how to earn it, while teach them about rational consumption.

# JA CHINA'S PROGRAM

## OUR CURRICULUM

JA curriculum enables students to learn: work readiness, principled entrepreneurship and financial literacy. After 24 years of development, our programs currently center in five cities, Beijing, Shanghai, Guangzhou, Chengdu and Xi'an, radiating to over 30 cities. We deeply cooperate with thousands of schools that of elementary to university levels, to constantly develop their character, creativity and leadership.

## ACTIVITIES:

Activities are of multiple forms, including workshop, job shadow, forum and achievement exhibition. Volunteer teams, consisting of enterprise employees, will deliver courses. Students in activities like interactive games, group discussion, experience sharing and hands-on practices, will learn, discover, discuss about a specific topic with the volunteers.

### UNIVERSITY

#### DESIGN THINKING

Guide students to perceive, experience and practice different social topics, so as to develop and build their creativity confidence.

#### UNIVERSITY STUDENTS EXCELLENCE LEADERSHIP PROGRAM

Cultivate leadership and necessary high efficient working ability through projects operation, team management and marketing.

#### UNIVERSITY STUDENTS CAREER COMPULSORY SERIES

Help students experience real working environment through ways including lectures, workshops and internship.

#### JA LEADERSHIP FORUM

Engage business leaders to speak on university campuses and share their experience in career and leadership development.

#### YESXBOP (YOUTH ENTERPRISE SOLUTIONS FOR CHINA'S BOTTOM OF THE PYRAMID)

Nurture the innovative and entrepreneurial spirits of today's youth to create sustainable and profitable business solutions that improve the lives of people at the bottom of China's economic pyramid.

### SECONDARY SCHOOL

#### SUCCESS SKILLS

Give high school students a head start on developing their professional skills and planning their careers.

#### INTERNATIONAL ENTREPRENEURSHIP AND INNOVATION PROGRAM

Communicate with students from more than 100 member countries of JA Global, to develop their global thinking and business mindset.

#### SOCIAL INNOVATION RELAY

Encourage students to explore solutions that could drive the social development and address social issues, thus fostering empathy, critical thinking and creativity.

#### INTERNATIONAL TRADE CHALLENGE

Develop fundamental business skills for students through making business plan and presenting to entrepreneurs and risk investors for JA member countries in the Asia-Pacific region.

#### JOB SHADOW DAY

Bring students into the workplace and communicate with business volunteers, in order to learn first-hand knowledge about career and make connections between what they learn in the classroom and their future career path.

### PRIMARY SCHOOL

#### MIGRANT SCHOOL PROGRAM

Provide children of migrant workers with life-enriching opportunities to improve their basic understanding of business and economics.

#### LET'S TRADE

Learn about the concept of import and export; at the same time understand the importance, reasons and benefits of trading in our life.

#### I'M A CITY PLANNER

Learn about the concept of city, as well as different functional districts and basic jobs in it. Experience the main jobs to realize career enlightenment.

#### LAWS OF LIFE

Discover critical virtues and principles of life in games and interactions. Encourage students to transform these principles and values into behavior after their experience.

#### OUR NEW SUSTAINABLE CITY

Learn the necessary resources and energy of city development. Discuss about how to achieve sustainable development in the city and explore possible ways to save energy.

# “ “ JA CHINA HISTORICAL MOMENTS

During past two dozens of years, we have been offering character-based business and economic curriculum for more and more Chinese youth at more schools in more areas. By striving for growing up with partners, we are committed to continually boosting the development of quality-oriented education, educational fairness, corporate social responsibility and sustainable volunteerism.

# PROGRAM IMPLEMENTATION

## PRINCIPLED ENTREPRENEURSHIP: BENEFITING SOCIETY IS OUR ULTIMATE GOAL

We guide students to solve social issues with business models, and encourage them to understand the market in the global context, when emphasizing real operation and market test. By introducing volunteers teaching and tutoring to education process, we help students practice their innovation in real business environment and pass on the volunteerism.

### RESOLVE SOCIAL ISSUES WITH A BUSINESS MINDSET

Miao Embroidery is a beautiful treasure of Miao Minority, however, the female embroiders there are living in a difficult life. In the YESxBOP Contest 2016, the "Xiu Mei Tian Xia (Beautiful Embroidery All Over the World)" team from Shanghai University of International Business and Economics utilized B2B Marketing model to save the embroiders from their plights at the same time pass on this special cultural heritage.

### THE CORE OF ENTREPRENEURSHIP AND INNOVATION IS TALENT

The achievement of entrepreneurship and innovation does not depends on incubating how many products or companies; instead, it should be evaluated by how many young entrepreneurs who has entrepreneurship, attaches importance to social responsibility and sustainability can be cultivated. This is exactly what JA China has been committed to for 24 years and is still working on. The picture shows iLight student company, 2017 JA China Company of the Year winner from Chengdu Shude Middle School. Their product has applied a national patent.

### BROADEN HORIZON ON INTERNATIONAL PLATFORM

International Trade Challenge has been open to the youth in the Asia-Pacific region for 10 years. In 48 hours, students will accept the challenge, and design a product with its solution for entering to global market, then present it to all judges in English; afterwards, they will receive queries from judges. This year, three representative teams from Shanghai vocational school competed and communicated with other 27 teams from 9 Asia-Pacific markets including Australia, Hong Kong and Japan.

## WORK READINESS: SELF-RECOGNITION AND SOCIAL EXPERIENCE

Work readiness programs help the youth recognize their personal traits of each profession, so that they could make an early career plan and prepare suitable professional qualities. JA pays attention to students' soft skills and help the Ministry of Education build a bridge between school education and career environment. Meanwhile, through introducing business volunteers to education system and bring students to real jobs, we could cultivate students the necessary qualities for their career success.

### CHARACTER IS THE FOUNDATION OF SUCCESS

Character development is a theme behind all JA programs. JA business volunteers will share their working experience about making difficult and correct choices, guiding students not to deviate from professional ethics and moral. The picture shows Career Go volunteers sharing their career development experience to students in class.

### ZERO DISTANCE EXPERIENCE CAREER LIFE

On our "Job Shadow Day", we will invite students to visit corporations together with business volunteers. Students could have a better understanding of the industry and the job status; perceive the connection between school education and their career development, through visiting and face to face communication. The picture shows JA students from over ten schools in Beijing visiting Thomson Reuters.

### SELF-RECOGNITION STARTING FROM INTEREST

In JA classes, volunteers would encourage students to think out of boxes rather than provide them fixed answers. The most important thing is to increase students' self-recognition through JA program, to stimulate their potentials and make contributions to the society, which is the success identified by JA. The picture shows JA China elementary school students presenting their green innovation products on green innovation exhibition.

## FINANCIAL LITERACY: LIVE A HONEST AND AFFLUENT LIFE

We help students to prepare for entering financial market and using financial tools, and to develop a positive attitude; as a result to equip them with the ability to make a rational financial decision. Financial literacy is demonstrated by the accurate understanding of financial concepts, rational attitudes and positive actions. After over 10 years' effort, we has accomplished a financial education system for students in primary and secondary school, comprising course standards, textbooks, teachers training, activities and testing tools.

### START THE LIFE COMPULSORY LESSON AS EARLY AS POSSIBLE

“My students also love to go shopping online and are using Alipay. Three years after graduation, they will enter the life as an independent adult. When people are selling them those credit cards, stocks, financial products with high interests or loans without interest, will they be able to handle all these with enough capability? Will they grab the right financial opportunities when they come? Can they protect themselves when facing financial traps? When I know JA is promoting ‘My Money Business’ program, I know this could be the answer to all our problems.”

——Lu Guanting, teacher at Guangdong Experimental High School

### LIFE PLANNING FROM POCKET MONEY

JA China's Chairman Paul Chou would like to ask a question in his sharing: if you had 100 million USD, how would you spend it? To learn how to manage 100 million USD starts from practicing how to manage pocket money. The picture shows on the My Money Business Class, business volunteers using an “auction game” to guide students into building correct value of money and consumption which will help them realize their life goal.

### ALL-DIMENSIONAL LEARNING COMBINING THEORY AND PRACTICE

For online learning, JA China has developed a learning website [money.jachina.org](http://money.jachina.org) for students' self-learning and teachers' reference. For offline activities, besides inviting volunteers with strong professional background to teach in school, students also have internship opportunities to perceive by themselves in banks or other financial organizations. This picture shows JA students visiting Skills for Success Skills Workshop at Bloomberg.

# BUSINESS VOLUNTEER

Since established in 1993, JA China has witnessed the growth of corporate social responsibility and volunteerism in China. From only dozens of volunteers in the academic year 2001/2002 to 71,393 volunteers 24 years later, JA volunteers have been actively giving back to the society by cultivating economic talents with global vision for China. The JA colleagues from over 100 countries around the world were all admired for this development of volunteerism in China when we shared with them.

## VOLUNTEERING SERVICE WITH “TRIPLE WIN”

FOR BENEFICIARIES

Gain knowledge and skills
Establish connections and relationships for future development
Better understand social reality
Bring inspiration and enhance self-esteem
Facilitate positive outlook on life with volunteerism

FOR VOLUNTEERS

Realize self-growth and accomplish social value
Share knowledge and skills
Bring inspiration and enhance self-esteem
Learn and benefit from interaction with others
Expand social network

FOR CORPORATIONS

Participate in new social sectors and play non-traditional roles
Enhance the sense of belonging and satisfaction of their team members
Valuable brand recognition of corporate social responsibility
Build meaningful relationship with local community and government
Increase future clients, employees and supporters

During the academic year 2016/2017, the volunteering hours of business volunteers in JA China programs already achieved **113,154 hours**, which equals to **14,144 working days** or **38.75 years**. This is almost the length of a man's entire career from college graduation until retirement at 60 years old. With their own professional development experience, the business volunteers guided the young students who will soon start their careers. The beneficiaries in the past will one day become new business volunteers to carry on this inheritance, which is the commitment between education and public interest.

### JIANG JUAN

GENERAL ELECTRIC

During my decade as a JA volunteer, I can feel the innovation in JA activities and the quality trainings to children in many JA projects from elementary to high school. I not only had passionate interactions with the children, but also met many like-minded friends from JA. Let's support JA and do better!

### QI WEI

MICROFUN

The best way to keep doing something for many years is to make it a habit and a lifestyle. Volunteering at JA is just like this. Now one decade has already slipped away. At JA, I integrated my thoughts and actions into my courses and shared with students, met many like-minded volunteers who can widen each other's horizon, and also witnessed the progress of my students with my own eyes. Especially with decade of development, now I can see many students scattered around the world and making difference. Keep marching JA! Go go go!

### RUAN XIAOJIA

GENERAL ELECTRIC

In the 11 years after I joined JA, learning, sharing and growing are my biggest rewards. While sharing my professional experience and helping students to design their future career paths, I also used the methods that JA courses provided to rethink and analyze my own professional development. When the students asked me how to get along with senior colleagues, I was learning from them for how to get along with younger generations. At JA, I had the privilege to meet friends with varied background and ages. With my appreciation and gratitude, I would like to continue this journey with JA.

### TIAN YALIN

BAIDU

How time flies! Now it has been 10 years since I joined JA, but I can still vividly remember the first time I stood behind the podium with a tissue in my hand and sweat on my forehead. I was very nervous, and afraid that my students could tell. Now although I still get nervous, I feel differently with better understanding of awe, gratitude and cherishing. Thank you JA for providing me with this outstanding platform and chance to stay ahead of the times, and practice the most cutting-edge education ideas. Thank you all my students for giving me the opportunity to witness your success and growth. I also need to thank myself for persisting in this path without abandoning. Look forward to living up to the amazing time in the next 10 years.

### SONG WENMIN

BEIJING TIME & WINPOWER TECHNOLOGY

Now it is my 11th year volunteering at JA. I have lost count of how many schools I have been to or how many courses I have taught, but as a diligent JA volunteer, I can always feel my energy and efforts are beyond my imagination, and my potential and gain are even more beyond my imagination. I would like to keep following the notions of "gaining everything by pursuing nothing" and "being better is even better". Just like what I always say to my students in classroom: "you are successful as long as you are always a little bit better than yesterday." With all of our efforts and dedications, we will keep this journey together with everyone at JA.

### YAN YUYANG

DIDI CHUXING

I accidentally participated in JA activities during college. Since then, I have spent 10 amazing years with JA from an intern to a volunteer. My memory from JA class are full of laughter and benefits. When cooperating with other fellows, we all say that we, as volunteers, actually gain more from the activities than our students. For myself, JA paved my way to be a part-time lecturer, from my first time doing knowledge sharing at the Student Company Program in a middle school, being a MTR trainer, until becoming a part-time lecturer at Didi Academy. Most importantly of course, is getting to know many true friends at JA to share our heart and souls. Thank you JA to be there with me in the past 10 years!

# “ SALUTE TO EDUCATORS

As a nonprofit organization dedicated to adolescent education, JA China had a difficult start 24 years ago. Now it has impacted students for over 5, 867, 259 person-time accumulatively. Some projects were partnered with Beijing Research Institute of Education and Science, selected into Beijing regional curriculum, and had extensive and intensive cooperation with thousands of universities, middle schools and elementary schools. These cannot be done without the acknowledgement and support of all the educators. Among them, there are researchers who supported the design of our courses, principals or masters who introduced and promoted JA programs in their schools, and also teachers who give lessons directly to students. JA China would like to express our sincere gratitude to all the educators who have been supported us in such a long time.

**MA BOLE**  
TSINGHUA UNIVERSITY HIGH SCHOOL CHAOYANG, PRIMARY SCHOOL BRANCH

“The JA volunteers introduced me to this organization and their courses, and I gradually understood their ideas. The JA volunteers and students also finished many wonderful innovations together, and exposed us to the multiple ways of thinking for one problem, which were generated from different professional background. We gained a lot of benefits and joy from this big family!”

**BAI LANPING**  
WUSONG MIDDLE SCHOOL

“From the first encounter until becoming a loyal fan, I understand and get touched by JA more and more. I am touched by the persistence of the organization, who only cares about the development of students rather than its own fame. I am also touched by the persistence of volunteers, who are diligent and meticulous. Years of dedication finally made more people realize the value of JA’s work. Our School has witnessed the development of JA China with more than 400 beneficiaries.”

**WENG YABIN**  
SHANGHAI PUTUO DISTRICT COLLEGE OF EDUCATION

“Externally, JA’s unique competitiveness lies in its business economics education with global vision and the highly qualified business volunteers. Internally, the positive value and healthy operating mechanism are the important guarantee for JA curricula’s development. We cherish this simplicity and concentration in such a pompous and utilitarian society. Hope JA can always remember why it started and keep marching on.”

**LI QING**  
GUANGDONG MIDDLE SCHOOL

“When I brought our students to visit a company, JA arranged everything with thorough considerations, including agenda, volunteer arrangement, student grouping, and interview questions, where I was greatly benefited as a team leader. Later on, I developed our school’s career experience course for freshmen based on JA China’s Job Shadow Day. Now the course has become one of highlights with outstanding feedback in my school. Every semester when I received the JA textbooks, I can’t help saying ‘it is so lucky to meet you, and hope you will always be there with me in the future!’”

**SU CONGLI**  
CHENGDU SHISHI TIANFU HIGH SCHOOL

“JA courses are innovative and practical, which are great supplements to the regular school curricula. JA Social Innovation Relay provides a platform for our students to show their talents and stimulate their potential. It also encourages them to pay attention on social issues, and cultivates their business innovation capability and social responsibility. While participating in the competition, students improved their expression and writing skills, as well as their team spirit and sense of duty. These can benefit them for the rest of their lives, and they are also my motivations to keep supporting JA.”

**GAO YANGJIE**  
XI’AN HIGH TECH NO.2 SCHOOL  
XI’AN HIGH TECH NO.1 SCHOOL

“As a part of our school’s moral curricula system, JA courses are popular among our students with their active lessons and abundant contents. They play an irreplaceable role in our students’ civic awareness cultivation, career enlightenment, and business thinking practice. Hope JA can continue providing more similar learning and practicing opportunities with global vision for our students, and shape them into comprehensive and innovative talents with international perspective through joyful study, healthy growth and confident lives.”

**GAO SHUYING**  
BEIJING YUYUANTAN MIDDLE SCHOOL

Ten years ago, one of my students heard about JA and asked me whether I could set Company Program for them. This introduced me to JA China, a nonprofit organization full of social responsibility, innovation and leadership, and also JA volunteers, a group of people with love, passion, and wisdom. Since then, Yuyuantan Middle School sets up Company Program, My Money Business, and JA Economics, which are very popular among students. Like a beacon, JA course lightened the future paths of our students. 6 years, 12 semesters, over 50 student companies, dozens of student CEOs, hundreds of person-time participation, 6 consecutive years of joining “Company of the Year Competition”, in-depth experience at over 20 companies, all these statistics witnessed the growth of our students. Thank you JA China! Thank you JA volunteers!
